A fantastic day was had by all at the Tangalooma Resort when the Astra Zeneca team took on the Survivor Team Challenge! The day was action packed with teams racing to complete each challenge and earn \$\$ for purchasing goods at the grand finale - construction mania. Awesome boats were constructed and took to the ocean to test the floating capability - well done all teams... love the sales spiel and effort put into the construction phase of the day! Hope you all enjoyed yourselves and we look forward to meeting with you again someday.
